

Terms and conditions of use for the GNSS network services - SPSLux
(Service de Positionnement par Satellites du Grand-Duché de Luxembourg)

The national cadaster and mapping authority of Luxembourg (Administration du cadastre et de la topographie (ACT)) provides the services of the local satellite positioning reference system under the following conditions.

- 1) The use of all SPSLux services (real time or post-process) is free of charge.
- 2) The fees in relation to the mobile data use apply in accordance to the conditions set by the service provider of the user.
- 3) The ACT is not responsible for inadequate provision caused by loss of signal or other factors affecting provision.
- 4) A specified quality of the correction data provided by the services is not guaranteed and can be subject to changes due to non-predictable external influences.
- 5) The ACT is not responsible for the inappropriate use of the services (real time correction or raw data stream) and is not responsible for any kind of damage caused to any person or object due to the use of the services.
- 6) The ACT is not responsible for any damage caused by the non-availability of the services.
- 7) In case of known service disruptions due to technical reasons or planned maintenance operations, the user will be notified by email in advance.
- 8) The ACT puts all reasonable effort in keeping the services up and running 24/24h, 7/7d.
- 9) Any support requests are treated within the standard opening times of ACT only and are subject to resource availabilities.

By subscribing to one or more of the proposed services, the user accepts these terms and conditions.
