

User guide on how to fill in the application form for SPSLux services

User guide for SPSLux services access:

- Fill in the application form on <https://www.spslux.lu/SBC/Account/Register>. Please consider:
 - o Username and password relate to the login for your SPSLux account.
 - o NTRIP username and NTRIP password relate to the login for the mountpoint stream.
 - o Please provide a valid e-mail address, as SPSLux updates and scheduled maintenance are communicated to this e-mail address.
- Hit the Sign-Up button.
- Confirm your registration via the e-mail you received from noreply@act.etat.lu.
- Login on <http://www.spslux.lu/sbc/> with your username and password. While logging in for the first time, please choose a package:
 - o SPSLux package "Surveying" for access to all real time correction services (network RTK, RTK and DGNS corrections).
 - o SPSLux package "Raw data" for access to the post-process services (raw data stream with nullantenna).
- Hit the Subscribe Now button.
- Your order will be processed by the SPSLux Team and a confirmation e-mail will be sent to you, as soon as the service is ready to be used.
